

WHY URUGUAY

Uruguay has naturally become a logistic-services country, thanks to its geographic location and the continuous development of a state policy.

- Legal, political and social stability
- Country policy: Uruguay Logistic HUB
- Tax-exemption regime
- Macroeconomic soundness
- Highly qualified staff
- Strategic location
- Strong focus on innovation

PILLARS OF OUR VALUE PROPOSITION

LACC operates under Uruguay's Free Airport Law, designed exclusively to provide favorable conditions for lean regional distribution. The pillars of our value proposition are described below:

Full Tax Exemption Regime

Exonerate income tax, wealth tax, value-added tax with no restriction in the repatriation of profits or movement of capital.

Multimodal Transport Capabilities

Consolidate land, sea and air freight at LACC's GDP compliant premises and customize the last mile for agile, more reliable access to Argentina, Brazil and all other markets in South America.

GDP Compliant Infrastructure and Processes

Fully compliant infrastructure and standard operating procedures designed, documented and monitored by internal Quality Assurance department. All operations and premises fully auditable on-demand.
